

1. INTRODUCTION

The DCF series consists of two models of mobile alert systems, the DCF-100 and the DCF-200. The DCF-100 is a compact unit designed for use in vehicles, while the DCF-200 is a larger unit designed for use in homes or businesses. Both units are designed to receive emergency alerts from the mobile alert network and display them on a color LCD screen.

2. FEATURES

- Compact design for vehicle use
- Large color LCD screen for displaying alerts
- Rechargeable battery for portability
- Long battery life (up to 10 hours)
- Easy-to-use interface with large buttons and clear displays
- Weather-resistant design for use in vehicles
- Home version includes a built-in antenna and a power adapter
- Vehicle version includes a car charger and a mounting bracket
